

Bubba Gump Sandgate

14 AC units. New cold storage. Complete beer system. One contractor.

The requirement

Deliver the refrigeration, air conditioning, beer dispensing and mechanical services for a major restaurant refurbishment.

Kitchen hood supplied and installed

Kitchen exhaust and associated ductwork

Cold-room installation

The delivery

- Replaced 14 air-conditioning units.
- Built a new freezer room and cold room.
- Relocated an existing cold room from outside to inside.
- Built the beer system from glycol unit to taps.
- Supplied and installed the kitchen hood, exhaust and associated ductwork.
- Completed all associated electrical works.

The outcome

A coordinated refurbishment scope delivered by Beer Works, ACRO Refrigeration and Shelair, covering the venue's refrigeration, HVAC, beer and mechanical systems.

Planning a venue refurbishment?
